

BASIC PHOTOGRAPHY

DIGITAL Learning to capture LIGHT

Learn how to:

- *Use your camera more effectively
- *What to look for when buying equipment
- *Photographic fundamentals of exposure and composition

Please bring your camera to 1st lesson

- Landscapes/Architecture
- Night Photography
- Still Objects
- People
- Nature
- Motion

Photography Basics - In this (16hrs) course, we will discuss the different camera functions to help you move past just using the pre-set functions of common DSLR cameras, hands on Day and Evening practical sessions. You will become comfortable using the (MAPS**) modes for DSLR cameras and learn the basics of the 4 primary modes for DSLR cameras. We will explore what goes into making an image from the moment you hold your camera to that moment when you activate the shutter release. The goal for me is to help you understand using Manual Mode by the end of the first theory lesson and capable of using this mode on your own by the end of the first practical.

Commencing Date : 05 Oct - 02 Nov 24

Day : Every Sunday

Course conducted by :

Patrick Leong

Day 1 : 05 Oct 24

2-5pm

Day 2 : 12 Oct 24

2-5pm

Day 3 : 19 Oct 24

2.5.30pm (Outdoor)

Day 4 : 26 Oct 24

4-7.30pm (Outdoor)

Day 5 : 02 Nov 24

2-5pm

Member \$200 / Non Member \$210
